### Creating Beauty

Combining artistry with surgical skill, **Dr. Stacie D. McClane** tailors each treatment to meet her patients' individual goals and needs. She is sought both for her "natural" results and for her down-to-earth and comprehensive approach.

"Dr. McClane was able to remove 20 tired years from my life. She is an amazingly talented professional with an innate sense of compassion and understanding that treats the whole person," said Mary, a long-term patient of Dr. McClane's.

Dr. McClane is one of a very limited number of female cosmetic surgeons in the Midwest who is certified by The American Board of Facial Plastic and Reconstructive Surgery. This specialization enables her to use her experience and vision to provide the highest level of expertise in rejuvenating and improving the face. Her specialties include facelifts, rhinoplasty, minilifts, blepharoplasty, fat transfers to augment and "lift" the face, Botox, and facial and lip augmentation with temporary and permanent injectables.

The on-site, fully accredited surgical facility provides privacy, safety, and convenience.

Her philosophy is simple. "I provide my patients with the best possible results and experience every time I see them. Safety and excellence are always the highest priorities. I love what I do. So, it's natural for me to be a perfectionist with every treatment."
